

# ART NEW ENGLAND

## MISSION STATEMENT

*Art New England* has been the premier contemporary arts publication for over a quarter century, engaging its readers with critical insight into the exhibitions, artists, trends, and controversies affecting the New England art scene today. Dedicated to providing coverage of regional artists working in both local and international settings, *Art New England* continues to enhance the ongoing discourse between those connected by their love of art and culture.

Our mission is to examine the issues, institutions, and changing views that motivate the art world today, with a presentation and regional focus that does not exist in any other publication.

Art New England  
425 Washington Street, Brighton, MA 02135
